About Us

Incorporated in 1992, Chinatown Food Corporation Pte Ltd (Chinatown) are pioneers in manufacturing frozen food products under the globally registered trademark, 'Chinatown'.

Our specialty lies in the safe and efficient production of Glutinous Rice Balls and other Asian food products which are currently exported to countries like China, Malaysia, Australia, Canada, USA, Paris, Netherlands.

Chinatown holds a lot of pride in the products and we always put our consumers first, which is why our products do not contain artificial flavourings, preservatives, essences and additives. Recently, Chinatown has also embarked on 'Reduced Sugar' products in making food healthier for all.

Chinatown was also the first and only Glutinous Rice Ball manufacturer to be the recipient of Singapore's Food Safety Excellence Award Highest Accolade 'Platinum Award' for achieving 20 consecutive years of Grade 'A' Manufacturing License. This is a testament for our good hygiene practices as well as high standards of food safety we have in place to ensure that our products are safe and wholesome.

To add on, our consumers can be assured that we use the most advanced technology in our range of products and this will only continue to be applied as part of Chinatown's future expansion plans.

Chinatown is constantly on the look-out for partnership opportunities and we also accept private label (OEM) contracts where requested.
